Disclaimer: Although the secure implementation of any security mechanisms may be evaluated, the EMVCo SBMP Security Evaluation Process does not validate the cryptographic algorithms, methods and protocols themselves.

The EMVCo SBMP Security Evaluation Process is intended to provide valuable and practical information relating to the general security performance characteristics and the suitability of use for software-based mobile payment related products. The EMVCo SBMP Security Evaluation Process is designed to ensure a robust security foundation for these products at component and solution levels. The EMVCo SBMP Security Evaluation Process is an evolving process in relation to new attack techniques and technology, therefore Security Evaluation Certificates are issued for three years however the product will remain on the EMVCo Evaluated Products list only if it passes the annual security review. EMVCo reserves the right to perform new/random security testing throughout the lifetime of the component or solution which may impact Security Evaluation Certificates. The full terms and conditions upon which EMVCo Security Evaluation Certificates are issued by EMVCo are contained in the EMVCo SBMP Security Evaluation Process document and the EMVCo Security Evaluation Contract.
